**Attendance WOW!**  
 Well done to Aidenn M (2D) who has won a £5 voucher for Amazon today for 100% attendance this week. Who will it be next week? You've got to be in it to win it!

What a difference in the weather this week! Some days have felt positively Spring-like, encouraging us to get outside and enjoy the fresh air.

To add to the excitement, the clear nights have revealed an incredibly rare celestial event: all of the planets in our solar system are lining up and are visible to the naked eye! What an excellent opportunity to chat about Science at home with the family and spark some curiosity about our universe.

A huge thank you to 4R for their wonderful assembly this morning. It was heartwarming to see the children's enthusiasm and dedication on display. Let's keep the momentum going as we embrace these lighter evenings and the joy of learning!

**Learning Focus**  
 Our computing curriculum, which keeps the children engaged and excited while equipping them with the essential knowledge and skills for their future. As technology continues to evolve at a rapid pace, we're dedicated to ensuring our students develop the capabilities to navigate this ever-changing world. They're learning vital skills linked to problem-solving, resilience, and resourcefulness, which will serve them well in life.  
 Just imagine a future where frustration over technology is a thing of the past for the next generation – what an amazing achievement that would be. We're so excited about what lies ahead!

Thank you to 4R for their wonderful assembly that shared their learning. It was lovely to see them speaking so confidently

Please make sure your child has a full PE kit in school. Black jogging bottoms and leggings are permitted for winter months and a suitable pair of trainers or pumps.
